Here's a new twist on calling contests...video verification.

Now, your fellow competitors can see the action as you experienced it.

Rifles, shotguns and/or handguns can be used. No decoy dogs or any type of live decoy. No baiting. ATV's, snowmobiles, or planes are **NOT** allowed. One vehicle per team.

Only 2 shooters per set. You cannot have more than 2 cameras on each set. You may hunt anywhere in SD. All SD GF&P Rules and Regulations apply.

You must be back by check-in time. No exceptions! Each team will be given 10 blocks. Coyote must have block inserted in mouth with time taken. All coyotes will be weighed and temperature will be taken.

For coyote to count towards final total, the shot must be **clearly** visible on camera. No Exception!

Multiples:

- You may shoot as many as possible, but only the ones visible on camera will count towards final total. No exceptions!
- It will be up to the judges to allow a kill or not. Their decisions are final!

After each kill, one team member must hold up and show their team mascot. Your mascot will be given to you the night of the rules meeting. Do not lose your mascot. No mascot on film equals zero coyote for that set.

Bring a back up camera and extra batteries just in case.

We will try and have big screen TV's available to view the shots.

Please try to avoid swearing on film. Children may be present at viewing and videos may be used online as well.

Most importantly, **HAVE FUN & GOOD LUCK!**
